Protect-All® Flooring Introduces Vinyl Cove Cap and Z-Bar

OSCODA, MICHIGAN – Protect-All Flooring is pleased to expand their line of flooring system solutions with a Vinyl Cove Cap and Z-Bar option. Through customer feedback and extensive testing, the new Dark Gray Vinyl Cove Cap was developed to provide a decorative look in commercial applications. Additionally, the new Vinyl Cove Cap Z-Bar was developed to mimic the aluminum Z-Bar option, ensuring an easy application for installers that are familiar with Protect-All.

This Vinyl Cove Cap and Z-Bar option is designed to be fastened to the cove base of the floor to prevent water from penetrating the flooring system. It also provides additional support in securing the cove base to the wall. Outlined below are the new Vinyl Cove Cap and Z-Bar options available at Protect-All Flooring:

- #864052 Dark Gray Vinyl Cove Cap and Z-Bar 8' – single piece
- #864052B Dark Gray Vinyl Cove Cap and Z-Bar 8' - 35 piece per tube

“Protect-All Flooring strives to offer a variety of solutions for the complex needs of the commercial flooring industry,” said National Sales Manager Jerry Lee. “We are excited to expand our Cove Cap and Z-Bar line to include this durable vinyl option for our customers.”

These new products are a testament to Protect-All’s commitment to providing the highest quality products, and their dutifulness to provide a variety of solutions that meet customer needs. About Protect-All Flooring

Manufactured by Oscoda Plastics®, Inc., Protect-All flooring derives its durability from the specialized thermal fusion process that blends remnant industrial-strength vinyl together into one monolithic piece. Oscoda Plastics has recycled over 40 million pounds of vinyl waste into Protect-All, keeping it out of our nation’s landfills. In 2014, Protect-All introduced Protect-All Rapid Weld™, a groundbreaking installation system that significantly reduces installation labor.
