Protect-All® Flooring Introduces New Screw Size and Updates

OSCODA, MICHIGAN – February 27, 2017 – Protect-All Flooring is pleased to announce updates and a new product offering for their line of screws. After receiving customer feedback and testing, the #8 screw has been upgraded to a self-drilling stainless steel screw and a new #12 stainless steel screw is now being offered. These adjustments are a testament to Protect-All Flooring's commitment to quality products that save installers time and money.

Please see below for a complete list of the screw sizes available at Protect-All Flooring:

- **#8** – 1.25" Stainless Steel Hex Head Screw – Self drilling with a hex head driver.
- **#10** – 2" Stainless Steel (Counter Sunk Head) Screw with a Square Drive – Along with a 5/16" concrete drill bit, a square drive bit and a lead anchor.
- **#12** – 1.25" Stainless Steel (Counter Sunk Head) Screw with a Square Drive – Along with a 5/16" concrete bit, a square drive bit and a lead anchor.

About PROTECT-ALL Flooring

Manufactured in Oscoda, Michigan by Oscoda Plastics®, Inc., Protect-All flooring derives its durability and slip-resistance from the specialized thermal fusion process that blends remnant industrial

strength vinyl together into one monolithic piece. Oscoda Plastics is a fast-growing manufacturer specializing in the production of recycled building products. Oscoda Plastics has recycled over 40 million pounds of vinyl waste into Protect-All, keeping it out of our nation's landfills. In 2014, Protect-All introduced Protect-All Rapid Weld™, a groundbreaking installation system that significantly reduces installation labor.
