

LEED® Program

PROTECT-ALL Flooring can contribute towards earning LEED credits* in the following programs:

Commercial Interiors (LEED CI v2.0)

Material and Resources		Credit Value
MRc 2.1	Construction Waste Management (50%)	1 pt.
MRc 2.2	Construction Waste Management (75%)	1 pt.
MRc 4.1	Recycled Content (10%)	1 pt.
MRc 4.2	Recycled Content (20%)	1 pt.
MRc 5.1	Regional Materials – 20% Manufactured Regionally	1 pt.
MRc 5.2	Regional Materials – Extracted & 10% Manufactured Regionally	1 pt.
Indoor Environmental Quality		Credit Value
EQc 4.1	Low-Emitting Materials – Adhesives / Solvents	1 pt.

New Construction (LEED NC v2.2)

Material and Resources		Credit Value
MRc 2.1	Construction Waste Management (50%)	1 pt.
MRc 2.2	Construction Waste Management (75%)	1 pt.
MRc 4.1	Recycled Content (10%)	1 pt.
MRc 4.2	Recycled Content (20%)	1 pt.
MRc 5.1	Regional Materials – 20% Manufactured Regionally	1 pt.
MRc 5.2	Regional Materials – Extracted & 10% Manufactured Regionally	1 pt.
Indoor Environmental Quality		Credit Value
EQc 4.1	Low-Emitting Materials – Adhesives / Solvents	1 pt.
Sustainable Sites		Credit Value
SSc 7.1	Heat Island Effect: Non-Roof **	1 pt.

Existing Building – Operations & Maintenance v1.08 (LEED EB-OM)

Material and Resources		Credit Value
MRc 3	Sustainable Purchasing: Facility Alterations and Additions	1 pt.
MRc 9	Solid Waste Management: Facility Alterations and Additions	1 pt.
Sustainable Sites		Credit Value
SSc 7.1	Heat Island Reduction: Non-Roof **	1 pt.

*Points toward the LEED Green Building Rating System are not awarded on the basis of products but on the building performance achieved through sustainable design, construction and operations of buildings, which can include the use of sustainable materials and products offered by Oscoda Plastics®, Inc. The products covered in this chart can assist building teams by contributing to LEED credits as long as the overall design meets or exceeds the LEED performance standards.

** Applies to tan only
