OSCODA PLASTICS®, INC INTRODUCES NEW PVC COVE CAP

Oscoda Plastics, Inc., the manufacturer of PROTECT-ALL Commercial Flooring, is pleased to announce the release of its new PVC cove cap. This new product line component will give Oscoda Plastics' customers an additional cove cap choice when installing the PROTECT-ALL flooring system.

The new PVC cove cap offers the same strength and durability as the original aluminum cove cap and is available in light gray, white, and tan. All colors are in stock and ready to ship when ordered. According to John Rouse, Oscoda Plastics national sales manager, the PVC cove cap gives a more versatile look to the PROTECT-ALL flooring system and will offer customers more design options for their commercial flooring needs.

Manufactured in Oscoda, Michigan by Oscoda Plastics, Inc., PROTECT-ALL Commercial Flooring derives its durability and slip-resistance from the specialized thermal fusion process that blends remnant industrial strength vinyl together into one monolithic piece. Oscoda Plastics, Inc. is a fast-growing manufacturer specializing in the production of environmentally- friendly building products. As the leading recycled vinyl flooring manufacturer, Oscoda Plastics has recycled over 40 million pounds of vinyl waste into PROTECT-ALL,

keeping it out of our nation's landfills. For more information regarding the new PVC cove cap, please contact John Rouse at 800-544-9538.
