OSCODA PLASTICS®[®], INC. ENHANCES INSTALLATION TRAINING

Oscoda, Michigan – July 2, 2008 -- Oscoda Plastics, Inc., the manufacturer of PROTECT-ALL® Commercial Flooring, has recently modified its hands-on installation training to a two day course.

The improved program covers design, layout, heat-weld installation, chemical-weld installation as well as several other installation techniques. “Proper training of our installers is the key to getting the most out of our customers’ PROTECT-ALL flooring system,” said Darren Taylor, Assistant Sales Manager. Those who pass will be put on a national list of factory-trained installers.

Manufactured in Oscoda, Michigan by Oscoda Plastics, Inc., PROTECT-ALL Commercial Flooring derives its durability and slip-resistance from the specialized thermal fusion process that blends remnant industrial strength vinyl together into one monolithic piece. Oscoda Plastics, Inc. is a fast-growing manufacturer specializing in the production of environmentally-friendly building products, which are used extensively in the commercial kitchen market. As the leading recycled vinyl flooring manufacturer, Oscoda Plastics recycle over six million pounds of vinyl waste into PROTECT-ALL a year, keeping it out of our nation’s landfills. For more information regarding Oscoda Plastic’s training program please call 800-544-9538.
