FOR IMMEDIATE RELEASE

From: **John Rouse, National Sales Manager**

Oscoda Plastics®[®], Inc. Reaches Safety Milestone

Oscoda, Michigan – February 24, 2009 – Oscoda Plastics®[®], Inc., the manufacturer of PROTECT-ALL® Commercial Flooring and PROFLEX® Vinyl Expansion Joints, is proud to announce that its employees have successfully worked 400,000 work hours without a lost work time accident. This is equivalent to more than 1,000 days without a lost time accident. The Occupational Safety and Health Administration (OSHA) uses the standard of 200,000 work hours to represent 100 employees working one year.

An Oscoda Plastics Safety Committee comprised of several employees as well as the Safety Manager, has been instrumental in pointing out hazards and potential hazards that have been eliminated in the last several years. Annual safety training has also been an integral part of the process to achieve this milestone.

“We continuously train our employees to perform in a safe, efficient, and smart manner under all conditions,” said Mark Lee, Safety Manager. “Safety is our top priority.”

Oscoda Plastics’ employees have strived to meet this milestone for a very long time.

“It is definitely a group effort,” said John Rouse, National Sales Manager. All production employees, supervisors, maintenance, sales, support staff, and office personnel have contributed to making Oscoda Plastics a safe working environment.”

To celebrate this milestone, Oscoda Plastics will host a special dinner for its employees.

Manufactured in Oscoda, Michigan by Oscoda Plastics, Inc., PROTECT-ALL

Commercial Flooring derives its durability and slip-resistance from the specialized thermal fusion process that blends remnant industrial-strength vinyl together into one monolithic piece.

*Oscoda Plastics, Inc. is a fast-growing manufacturer specializing in the production of environmentally-friendly building products that are used extensively in commercial kitchens, athletic facilities, veterinary offices, and many other flooring applications.
