**FOR IMMEDIATE RELEASE**

From: **John Rouse, National Sales Manager**

## **Oscoda Plastics® , Inc. Announces New Products Added to PROTECT-ALL® Commercial Flooring Line**

*Oscoda, Michigan – August 6, 2009 – Oscoda Plastics® , Inc., manufacturer of PROTECT-ALL® Commercial Flooring, announced two new products: pre-notched Z-Bar corners, and stainless steel screws and anchors.*

*The pre-notched Z-Bar corners are available in both aluminum and stainless steel. Pieces come flat and are notched in the middle for easy assembly of inside or outside corners. The pre-notched corners are easy to use and provide a clean, tight fit.*

*The stainless steel screws and anchors are ideal for securing transitional strips and drain rings to PROTECT-ALL. Each box contains 50 2-1/4" #10 screws, 50 1-1/2" anchors, one 5/16" concrete drill bit, and one driver bit.*

*PROTECT-ALL, made from 100% pre-consumer vinyl, is the leading environmentally-friendly recycled vinyl flooring product manufactured in the United States. PROTECT-ALL is commercial grade, slip-resistant flooring certified by the National Flooring Safety Institute.*

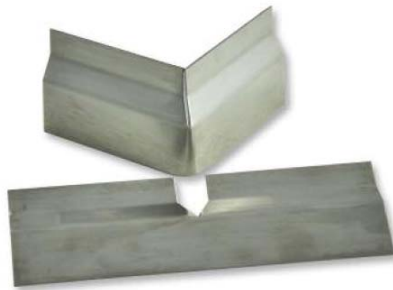

*PROTECT-ALL helps reduce slips and falls and is also resistant to mildew and other bacterial growth. It does not absorb water and is non-corrosive, even when exposed to chemicals, animal fats, or grease. Recommended applications include: building entrances, gymnasiums, weight rooms, locker rooms, commercial kitchens, cafeterias, and veterinarian offices.*

Since the company's inception, Oscoda Plastics has created environmentally-friendly products, utilizing excess pre-consumer vinyl from single-ply roofing system manufacturing process and other PVC scrap suppliers.

Manufactured in Oscoda, Michigan by Oscoda Plastics, Inc., PROTECT-ALL Commercial Flooring derives its durability and slip-resistance from the specialized thermal fusion process that blends remnant industrial-strength vinyl together into one monolithic piece. Oscoda Plastics, Inc. is a fast-growing manufacturer specializing in the production of environmentally-friendly building products that are used extensively in commercial kitchens, athletic facilities, veterinary offices, and many other flooring applications.
