

ANIMAL CARE

Paws, claws and heels are no challenge for a floor designed to be used in places that get the most abuse. Protect-All® provides a durable, sanitary and comfortable flooring solution for animal and pet care environments!

Protect-All's monolithic construction is designed to be impact and puncture resistant. This design also prevents the floor from being shredded and digested. Protect-All can withstand common elements found in an animal care environment such as dirt, mud, water and anything else your furry friends throw at it. The flooring's nonporous construction can handle bodily fluids without staining or leaving unpleasant odor behind after cleaning.

Protect-All flooring creates a soothing atmosphere by absorbing sounds typically found in animal care facilities as well as a softer under-paw environment for your pet. Protect-All is also highly resistant to chemicals, mildew and bacteria.

Durability, Cleanability & Longevity Combined

Unlike the competition, Protect-All needs no resurfacing over time, it won't chip, crack or break. With no wear layer or top coat to maintain, a simple maintenance procedure will make your Protect-All last for years.

American Made. Made To Last.

For more than 30 years, Protect-All has been producing our vinyl flooring right here in America. From concept to completion, we remain committed to providing you with high-quality, durable commercial flooring solutions designed to stand the test of time that are backed by a 10-year warranty.

Rise Above Rubber

Protect-All has all the benefits of crumb rubber without the downsides of using it. Our floors are made with heavy-duty vinyl designed to withstand weight loads from kennels to wash areas. Additionally, Protect-All floors do not produce off-gassing, are nonabsorbent and are resistant to a wide variety of chemicals, making them ideal for your animal care facility.

Outperform Epoxy

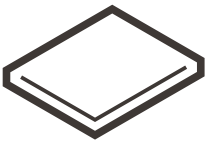

Protect-All stands the test of time without peeling, chipping or showing wear because it is made of 100% heavy-duty vinyl, meaning there is no wear layer. And it provides comfort underfoot by reducing leg fatigue in demanding environments. Along with being easily cleaned and maintained, its unique formulation stands up to the most commonly used disinfectant products.

Sizes

5' x 8' Sheets

5' x 5' Tile

2' x 2' Tile

Opting for durability doesn't mean compromising on design. Protect-All offers endless opportunities for customization with our Designer Series line of flooring solutions, so you can have a floor that looks as good as it performs. High-quality, beautiful and functional flooring delivering exceptional value so you can put your best foot forward. That's Protect-All.
