

FITNESS

Weight rooms and fitness centers require a durable flooring product that can hold up under repetitive action. As a recycled vinyl weight room flooring product, Protect-All® can withstand the toughest challenges such as extreme dead-weight loads, repetitive heavy impact and high-traffic patterns.

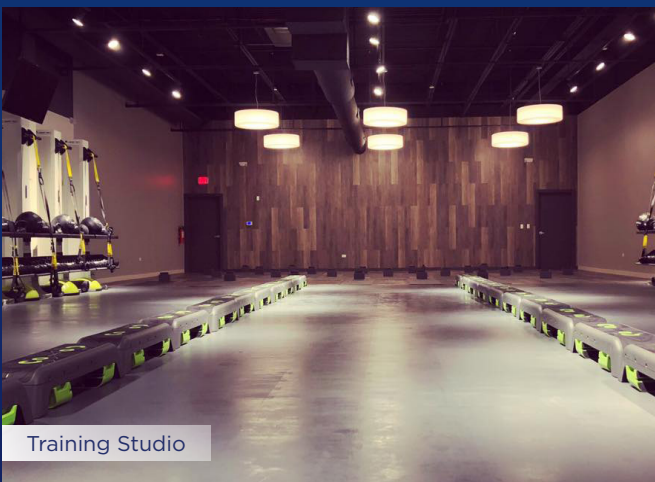

Protect-All's vinyl monolithic construction is designed to withstand diverse weight loads and temperatures, making it a great flooring solution throughout an entire athletic facility. Its durable design effectively resists impacts and punctures, even in high-traffic areas, while still providing comfort underfoot. This design helps prevent the floor from being dented, but still offers a soft surface for the most demanding workouts. The flooring's nonporous construction can handle bodily fluids without staining or leaving unpleasant odor behind after cleaning.

Protect-All flooring absorbs sound, fostering a tranquil environment often sought in fitness facilities. It boasts high resistance against chemicals, mildew and bacteria, enhancing hygiene and durability.

Durable, Sustainable, Comfortable & Sanitary

Crafted from more than 90% recycled materials, Protect-All is proud to play a role in diverting millions of pounds of vinyl waste from landfills each year. By choosing Protect-All, you not only opt for an aesthetically pleasing and durable flooring solution but also contribute to sustainability efforts.

American Made. Made To Last.

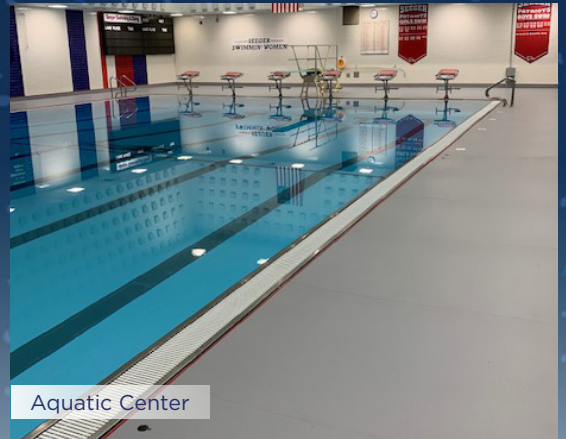

For more than 30 years, Protect-All has been producing our vinyl flooring right here in America. From concept to completion, we remain committed to providing you with high-quality, durable commercial flooring solutions designed to stand the test of time and are backed by a 10-year warranty.

Locker Room

Group Classroom

Aquatic Center

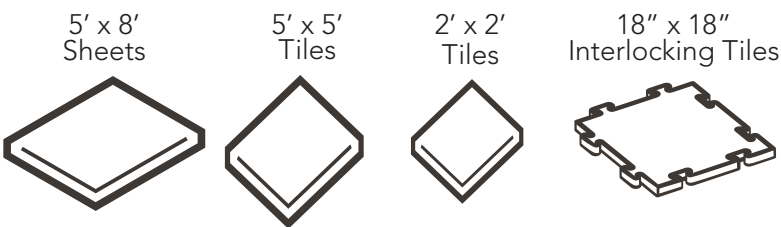

Multipurpose Court

Rise Above Rubber

Protect-All has all the benefits of crumb rubber, without the downsides to using crumb rubber. Our floors are made with 100% heavy-duty vinyl, meaning there is no wearing in color or chipping with the added benefit of no off-gassing. Protect-All is also non-moisture absorbent, chemical resistant and can handle weight loads from free weights to fitness machines.

Sizes

Opting for durability doesn't mean compromising on design. Protect-All offers endless opportunities for customization with our Designer Series line of flooring solutions, so you can have a floor that looks as good as it performs. High-quality, beautiful and functional flooring delivering exceptional value so you can put your best foot forward. That's Protect-All.
