

Approval of Wolff 4.5mm Groover Blade for Protect-All® Seam Grooving

Protect-All is pleased to announce that the Wolff 4.5mm groover blade is now an approved option for grooving Protect-All seams in all applications, alongside the 4.77mm Protect-All blade.

Internal testing has been conducted to compare the 4.77mm standard Protect-All blade with the new Wolff 4.5mm blade, demonstrating comparable results in seam appearance and bond strength.

The 4.77mm standard Protect-All blade remains available through our distribution partners and will continue to be our recommended option for grooving Protect-All seams.

For those utilizing a Wolff Master Groover already equipped with the 4.5mm blade, this blade is an approved and suitable alternative.

We encourage you to reach out to the Protect-All Technical Department at 800.544.9538 with any questions or to learn more about this product.
