PROTECT-ALL® FLOORING

DESCRIPTION:
Protect-All® flooring is slip-resistant flooring manufactured from 90% recycled content that provides protection for areas exposed to water, heavy-traffic patterns and extreme weight loads. Certified by the National Floor Safety Institute, Protect-All flooring helps reduce slips and falls, and is also resistant to mildew and other bacterial growth. It does not absorb water and is non-corrosive, even when exposed to chemicals, animal fats, or grease.

Protect-All flooring may be adhered or loose-laid. This allows for it to be used as temporary or permanent flooring protection.

USES:
- Building Entrances
- Weight Rooms
- Gymnasiums
- Locker Rooms
- Commercial Kitchens
- Cafeterias
- Veterinarian Offices
- Livestock Trailers
- Patios and Decks
- Freezers

PACKAGING AND COLOR OPTIONS:
- Available sizes
  - 5 ft. x 8 ft.
  - 5 ft. x 5 ft.
  - 24 in. x 24 in.
  - 18 in. x 18 in. interlocking
- Available colors
  - Blue
  - Burgundy
  - Black
  - Dark Gray
  - Green
  - Light Gray
  - Brown
  - Terra Cotta

- All sizes may be ordered individually.
- All sizes may be ordered with matte or gloss finish.
- All sizes made 1/4-inch thick.
  - Also available 1/8-inch thick by special order.

INSTALLATION:
Refer to www.protect-allflooring.com for installation instructions.
All substrates must be clean, dry, level, and structurally sound. Any uneven joints or cracks that create an unlevel condition must be repaired with an approved underlayment or leveling compound.

STORAGE:
Store at or near 70°F in a dry, protected area. Keep out of direct sunlight and weather.

CLEANING:
Scrub with a deck brush, mild degreaser and water.

SAFETY:
1. Read Safety Data Sheets (SDS) prior to using.
2. Wear proper personal protective equipment, such as gloves and eye protection, per the SDS.
3. Keep area ventilated while installing Protect-All flooring.
LEED® PROGRAM:
Protect-All flooring can contribute towards earning many LEED credits. Refer to the LEED Program on www.protect-allflooring.com.

PHYSICAL PROPERTIES:
Protect-All flooring has been subjected to the following tests.

<table>
<thead>
<tr>
<th>Test Method</th>
<th>Typical Value</th>
